**LETTER TRANSMITTING THE DEMAND FOR INTERNATIONAL
PRELIMINARY EXAMINATION UNDER PCT ARTICLE 31
AND REPLY TO WRITTEN OPINION AND ARTICLE 34 AMENDMENT**

Dear Sir:

Transmitted herewith, for timely filing before the USPTO by the deadline of 24 August 2005, is a completed Demand document under PCT Article 31, including a copy of the fee calculation sheet.

Applicant is also filing his Reply to the Written Opinion dated 18 March 2005, including an Article 34 Amendment consisting of Replacement Sheets 13-16.

Claim 1 is amended to include the limitations of claim 8; claim 10 is amended to include the limitations of claim 13; claim 21 is amended to delete the word "or" from each instance of "and/or" and claims 8, 13, and 29 are canceled. Following the cancellation of three claims, the remaining claims have been re-numbered, and antecedent references have been corrected. There are twenty-seven claims remaining in the application.

I hereby certify that this paper or fee is being deposited with the U.S. Postal Service "Express Mail" Post Office to Addressee" service under 37 CFR 1.10 on the date indicated below and addressed to the Director of the United States Patent & Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450

REMARKS ADDED 17 APR 2006

The Examiner states in Box V of the Written Opinion that claims 8, 9, 13 and 14 contain an inventive step. The limitations of claims 8 and 13 have been moved into independent claims 1 and 9, respectively.

The Examiner further states in Box V of the Written Opinion that claims 20-30 lack an inventive step under PCT Article 33(3) as being obvious over Akiyama in view of Warner. Original claim 20 is now renumbered as claim 18. Renumbered claim 18 depends from renumbered claim 9, which includes the limitations of original claim 13. As stated by Examiner, original claim 13 includes an inventive step.

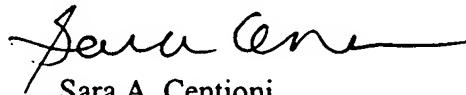

Renumbered claim 19 includes a sensor for determining the humidity, moisture, *and* temperature of an area and a means for warning when the humidity, moisture, *and* temperature within said area is above a preset, desired humidity, moisture, *and* temperature. None of the references cited either individually or in combination teach or suggest the use of such features. At most, these references address only relative humidity, rather than moisture and temperature. The present invention includes a system for monitoring most, if not all, ambient conditions of enclosed spaces so as to optimize these conditions. Additionally, this monitoring can occur from within the enclosed space or externally to the enclosed space.

CONCLUSION

In light of the foregoing remarks and attending amendments, Applicant respectfully requests the establishment of a favorable International Preliminary Report on Patentability.

Respectfully submitted,

NEXSEN PRUET, LLC
